AB Inorg. **coating** compns. for metals, giving water-resistant **coating** films, are prepd. from a stable colloidal SiO₂ dispersion, urea and/or thiourea, water-sol. Li salt in a Li₂O/SiO₂ **mole ratio** of 1:3-50, and Zn powder. Thus, 100 parts Snowtex-20 (com. colloidal SiO₂ dispersion) was mixed with 10% (based on water in the SiO₂ dispersion) urea, and LiOH in a Li₂O/SiO₂ **mole ratio** of 1:10 and 30-fold (based on SiO₂ wt.) Zn powder were added to prep. an inorg. **coating** compn. The **coating** compn. was applied to a steel plate and dried to give a hard, water-, sea water-, and solvent-resistant anticorrosive film.

ST **zinc** waterproof **coating** steel; anticorrosive **coating** steel **zinc**; **coating** protective steel **zinc**; **silica** steel protective **coating**; lithium hydroxide **coating** steel

IT **Coating** materials

(**zinc** powder mixt. with **silica** and lithium hydroxide, for steel)
